PROJECT NAME: Agentic AI Loan Origination and Credit Assessment Platform

Meeting Name: Project Requirements Review and Team Planning

Meeting No: 3

MEETING DETAILS

DATE:	05/08/2026
TIME:	4:00PM – 4:30PM
VENUE:	Online- Teams meeting
ATTENDEES:	Shivasainath Reddy Kaluvala
	Vivek Reddy Chereddy
	Kamesh Chakkaravarthi
	Prince Rajeshbhai Patel
	Parv Ashokbhai Patel
APOLOGIES:	Nil
COPY TO:	Project Team Members

AGENDA

1. Review of Project Requirements Document

- Review the complete project document provided by the Product Owner.
- Discuss the overall product vision and business objectives.
- Develop a common understanding of the proposed Agentic AI Loan Origination and Credit Assessment Platform.
- Identify the major components and expected capabilities of the platform.

2. Analysis of Functional Requirements

- Review and analyse the functional requirements provided by the Product Owner.
- Discuss the purpose and expected functionality of each requirement.
- Identify relationships and dependencies between different functional requirements.

3. Stakeholder Analysis

- Identify the key stakeholders involved in the platform.

- Discuss the needs and responsibilities of Customers, Loan Officers, Credit Managers and System Administrators.
- Begin developing appropriate user personas for the identified end users.

4. Initial Product Backlog Development

- Break the functional requirements into Product Backlog Items (PBIs).
- Develop user stories based on the identified system users and functional requirements.
- Discuss the initial priority and estimated story points for the PBIs.
- Allocate backlog development activities among team members.

5. Project Charter Development

- Discuss the Project Summary, Project Sponsor/Product Owner, Stakeholders, Project Team, Methodology, Governance, Scope and Deliverables.
- Allocate sections of the Project Charter to relevant team members.
- Ensure the charter reflects the requirements and expectations provided by the Product Owner.

6. Task Allocation and Next Steps

- Allocate stakeholder analysis, personas, customer journey, business process, product backlog and Project Charter activities across the team.
- Agree on internal deadlines for completing assigned tasks.
- Review completed work before the next client meeting.
- Prepare project-related questions and progress updates for discussion with the Product Owner.

PROJECT NAME: Agentic AI Loan Origination and Credit Assessment Platform

Meeting Name: Project Progress Discussion with Academic Supervisor

Meeting No: 4

MEETING DETAILS

DATE:	06/08/2026
TIME:	4:00PM – 4:30PM
VENUE:	Online- Teams meeting
ATTENDEES:	Dr Mojtaba Shahin – Academic Supervisor, RMIT University
	Shivasainath Reddy Kaluvala
	Vivek Reddy Cherreddy
	Kamesh Chakkaravarthi
